MaxR300™ Performance Notes

- When **MaxR300™** is added to an engine for the first time, it will start removing contamination within the fuel system.
- Allow at least one week for **MaxR300™** to take full effect. It will not provide complete benefits until the fuel system has been cleaned out.

MaxR300™ Instructions for Long Time Diesel Fuel or Equipment Storage

MaxR300™ substantially diminishes fuel degradation, especially for long term storage. **If diesel fuel needs to be stored for a long period of time without use, either in a storage tank or a piece of equipment, MaxR300™ should be applied at a ratio of 1 gallon to 100 gallons of diesel fuel.** When the fuel or equipment is ready for re-use, burn the fuel at its current ratio, before reverting back to 1 gallon of **MaxR300™** per 200 gallons of diesel fuel.
